

# AQUA®

YOUR TRUSTED PARTNER IN THE SPA & POOL INDUSTRY

## Maximize Your AQUA Social Media Campaign

### Quality Social Media Content:

1. Entertains and/or informs
2. Is short and sweet
3. Is not overly promotional

### The Result:

This content is more likely to be clicked, watched and shared, extending the reach (and return) on your post.

### Maximize Your Post on Facebook

**Like** the post on the AQUA Facebook page

**Share** the post from the AQUA Facebook page

*This allows your followers to see the post and gives them the option to like, share or comment on the post.*

**Comment** on the post on the AQUA Facebook page

*Tag anyone you think may be interested in the post. Do this by first typing the “@” symbol followed by their name or company’s name. Or respond to comments and questions left by our audience.*

*\*For optimum performance, your submitted image(s) should not include text. Facebook restricts the reach of images it perceives as advertisements.*

### Maximize Your Post on Twitter

**Like** the Tweet

*Your followers have the ability to see what you favorite. So favoriting a tweet increases the chance that others will see the tweet.*

**Retweet** the Tweet

*This reposts the exact tweet from AQUA to your own page so all of your followers can see it.*
